

Curia December 2nd 2014

Open: Olan, seconded by Tiberius

After meeting was opened by curia. Her Excellency asked to speak. She requested that the curia take itself and its responsibilities to the populace more seriously. She also asked that events for the barony not be neglected in the future, and planned and followed through on.

After Her Excellency spoke, our Seneschal talked about the necessity of and how to change our local baronial habits from a culture of avoidance to one of participation. So that people are happy and supported in serving the barony.

Point 1: Make sure that all curia members reads SOP

Point 2: We need for more events to be done as all baronial championships have been pushed or cancelled lately. We need more communication between the groups. Some ideas are discussed to add events that used to be done in the past either in January or February. Discussion about a possibility of a stepping down event outside BIA

Old Business

Exchequer: see paper.

Missing checks for Jeanne for the pvc tubes bought in February for the baronial stands. Missing a vote for passing the populace favor for heraldry. Registering populace favor as is.

Vote for two badges for the barony's populace: the actual populace favor and the baronial arms minus the laurel wreath: yay wins.

Comments on the Pennsic wall: voting a budget of 40\$ to get a new one: yay wins.

Aragorn brings the point for the archery championship: no location or autocrats were found in time to hold this event this year.

New Business:

We need to amp up the tablecloths for events as they have seen too many already. Vote done for a budget of 300\$ to replace them, stamping a Squamifer form on it. Yay wins.

Vote done for the building of 10 placeholder Squamifers done by Genovefa. Budget requested: 125\$. Yay wins

A&S championship regalia: vote to replace the actual regalia by hand woven zephyr caplet, budget requested: 100\$, yay wins
